## EXPERIENCES

### Front-End Developer

Since 2024

- **Inner** | *Laravel + React*

A web app designed to allow users to capture their moods and feelings throughout the day.

Back-end with Laravel and Front-End with React.

*inner-app.eu*

- **Fantaz** | *React, Node.JS*

Official website for musician Fantaz with an original webdesign, discography, show lists from Bandsintown API and contact form. Front-End with React Router, Tailwind CSS and Node.JS backend to handle the contact form.

*fantazmusic.com*

- **Hoops Map** | *JavaScript, REST API*

Search and find the nearest basketball playgrounds in France.

Data retrieved through the French Ministry of Sports public API.

*hoopsmap.fr*

- **Fast Copy Emojis** | *React, REST API*

Easy-to-copy emoji list.

Data retrieved from an open-source emoji list API

*copyemoji.click*

- **Lorem Le Plus Classe Du Monde** | *JavaScript*

Lorem Ipsum funny alternative for designers and “La Classe Américaine” movie lovers.

*loremleplusclassedumonde.fr*
