Chambéry, FR

Hey there,
I am a **front-end web developer** specializing in **JavaScript** and **React**, based in **Chambéry** in the Alps.
Coming from a **full-stack** background, I also code in **PHP** with an appetite for **Symfony** and **Laravel**.

15 years of experience in digital marketing beforehand, I have an **overall vision** of projects, **objectives** to be achieved, **customer relations**, **teamwork** with now technical skills.

EXPERIENCES

Front-End Developer | In training
Since 2024
Development of personal projects to complete my training as a web developer.

- **Inner** | *Lavarel + React*
  A web app designed to allow users to capture their moods and feelings throughout the day.
  Back-end with Laravel and Front-End with React.
  inner-app.eu

- **Hoops Map** | *JavaScript, REST API*
  Search and find the nearest basketball playgrounds in France. Data retrieved through the French Ministry of Sports public API.
  hoopsmap.fr

- **Fast Copy Emojis** | *React, REST API*
  Easy-to-copy emoji list.
  Data retrieved from an open-source emoji list API
  copyemoji.click

- **Lorem Le Plus Classe Du Monde** | *JavaScript*
  Lorem Ipsum funny alternative for designers and "La Classe Américiaine" movie lovers.
